

# The Amazing mangosteen brighten

**Mangosteen Brighten is high in antioxidants** — higher than some of even the best-known antioxidant ingredients, such as resveratrol, CoQ10, Vitamin C, astaxanthin, and green tea.

**Mangosteen Brighten helps defend skin** from the effects of free radicals, such as UV damage, irritation, and environmental exposure, all of which lead to redness, dullness, dryness, and premature aging over time.

Antioxidants like **Mangosteen Brighten will boost SPF** efficacy when used with SPF products.

## **Amazing uses for both day and night:**

*A.M.* — Apply a small amount of Brighten to clean skin and follow with a moisturizer, then apply Aeris Eye Renewal Concentrate and add your regular sunscreen.

*P.M.* — Apply a small amount of Brighten to clean skin and follow with a moisturizer and then Aeris Eye Renewal Concentrate.
